BlockBusters

Do the Twist

Made using Studio 180 Design's Rapid Fire® Lemoyne Star, Tucker Trimmer® I, and Starburst Technique Sheet

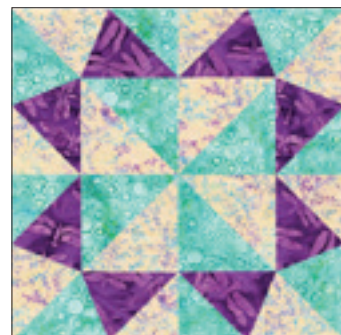

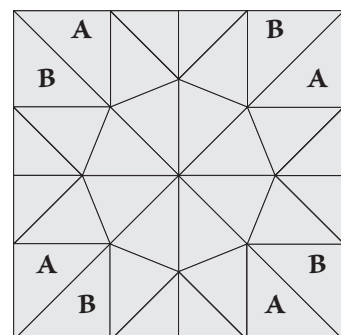

BlockBusters 2019: #39
Difficulty: ★★★★★

All the instructions you need to make the units required for this block are on the Starburst technique sheet. There's a chart, step by step graphics, and directions. Use the chart to find the information you need for the finished size star you want to make. Follow it through to find what you need to cut to make the A and B sections. Then work your way through the instructions. If you need more Lemoyne Star information refer to the instructions that came with your tool.

For this block, you will want to play with color. The different variations that you can make are astonishing. When we made this block, we constructed all our A sections in one color combination and all our B sections in another combination. The sections alternate colors.

To make this block, you will work your way through the Starburst technique sheet with your chosen fabrics. Sew your pairs together. Once sewn, you will trim the Lemoyne star as a quadrant using the Tucker Trimmer® I. The size is designated in the chart below. Play with the quadrants' orientation before you sew them together to create a unique block of your own. Press all block joining seams open to help reduce the bulk at the seam intersections.

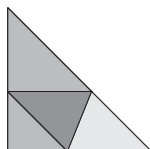

Cutting Chart

Unit	# of units required	4" Block	8" Block	12" Block
A: Lemoyne Star A Section	4	Strip and square sizes for a 4" finished block	Strip and square sizes for an 8" finished block	Strip and square sizes for a 12" finished block
B: Lemoyne Star B Section	4	Strip and square sizes for a 4" finished block	Strip and square sizes for an 8" finished block	Strip and square sizes for a 12" finished block
Quadrant Trim Size		2½" trim size	4½" trim size	6½" trim size
